BADGE SERIES Examples

Fedora Badges has several different existing badge series. These series' are a fun way to create another dimension to Fedora Badges (collecting a set) and help to develop more content.

Shown here are examples of badge series' within Fedora Badges.

wiki editor series

bodhi tester series

FORMATTING Anatomy of a Badge

This is a diagram of a Fedora Badge. The elements listed here are essential parts of what make up a Fedora Badge.

When designing a badge you should use all of these elements with only slight variations such as a specialty background.

Questions?

Who makes those

beautiful badges?

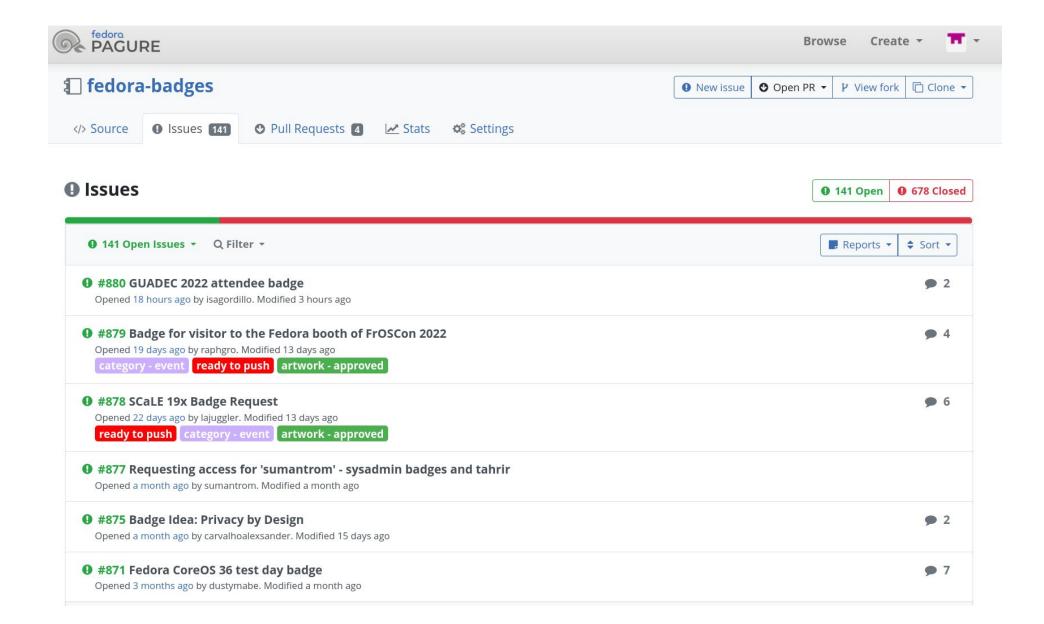

any guesses?

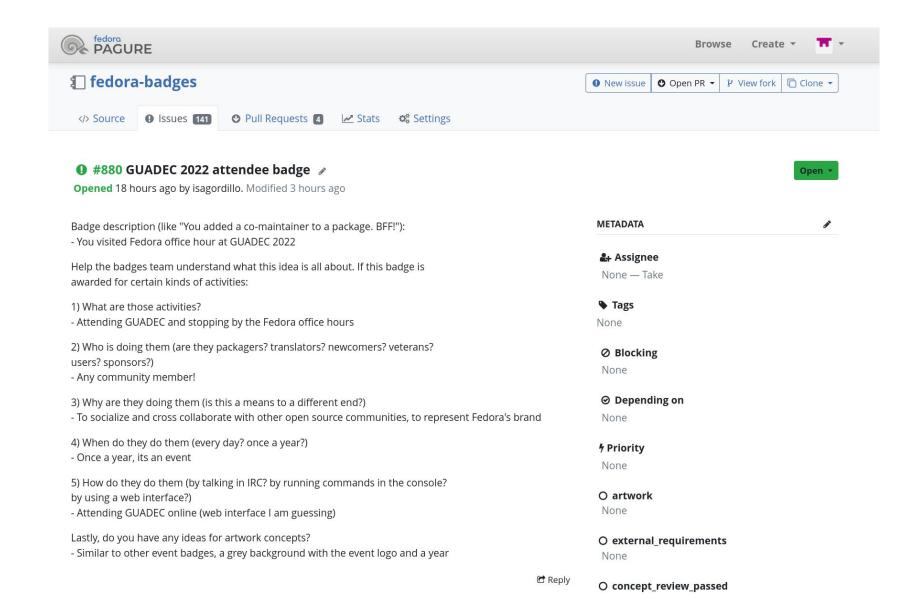

Who maintains badges?

Again, any guessers?

Approved!

The story of PNGs and SVGs

What is the Tech stack?

(Quite simple architecture actually) 😈

- Python
- Pyramid (who has heard about it?)
- fedmsg

What is the Tech stack? (continued)

- fedbadges
- tahrir-api
- tahrir-web

We need / O -

contribute to fedora

(One of the moved loved projects)

learn

(lot of areas to innovate)

design, coder, or sysadmin

(all are welcome)

know none? Triage

(we need folks to triage issues, and push badges. As simple as that)

Questions?

Thank you
