FOSDEM 2024

Your proposal: Mentorship Within Communities And Beyond - Projection Experiments With Case Studies

Hello Akashdeep,

Your proposal, "Mentorship Within Communities And Beyond - Projection Experiments With Case Studies", was not accepted in the Community DevRoom at FOSDEM 2024.

We received a total of 89 proposals this year and simply could not accept them all, even with the FOSDEM Team graciously adding a half day to our originally proposed schedule of a single day track. We are hopeful to extend the room to two days next year to allow us to accept even more proposals.

Thank you for taking the time and effort to submit, and we hope to welcome you at the Community DevRoom as an attendee.

With best regards, The Community DevRoom Co-Organizers Laura Czajkowski, Shirley Bailes, and Leslie Hawthorn
