FOSDEM 2024

Your proposal: Designing And Developing Robust API Client Applications - A Case Study Of Pagure Exporter

Hi!

We are sorry to tell you that we cannot accept your proposal "Designing And Developing Robust API Client Applications - A Case Study Of Pagure Exporter" to FOSDEM 2024. There were just too many great proposals - we hope to see you at FOSDEM 2024 as an attendee instead of a speaker!

The APIs & friends organisers
