Who we are

Our Current Team
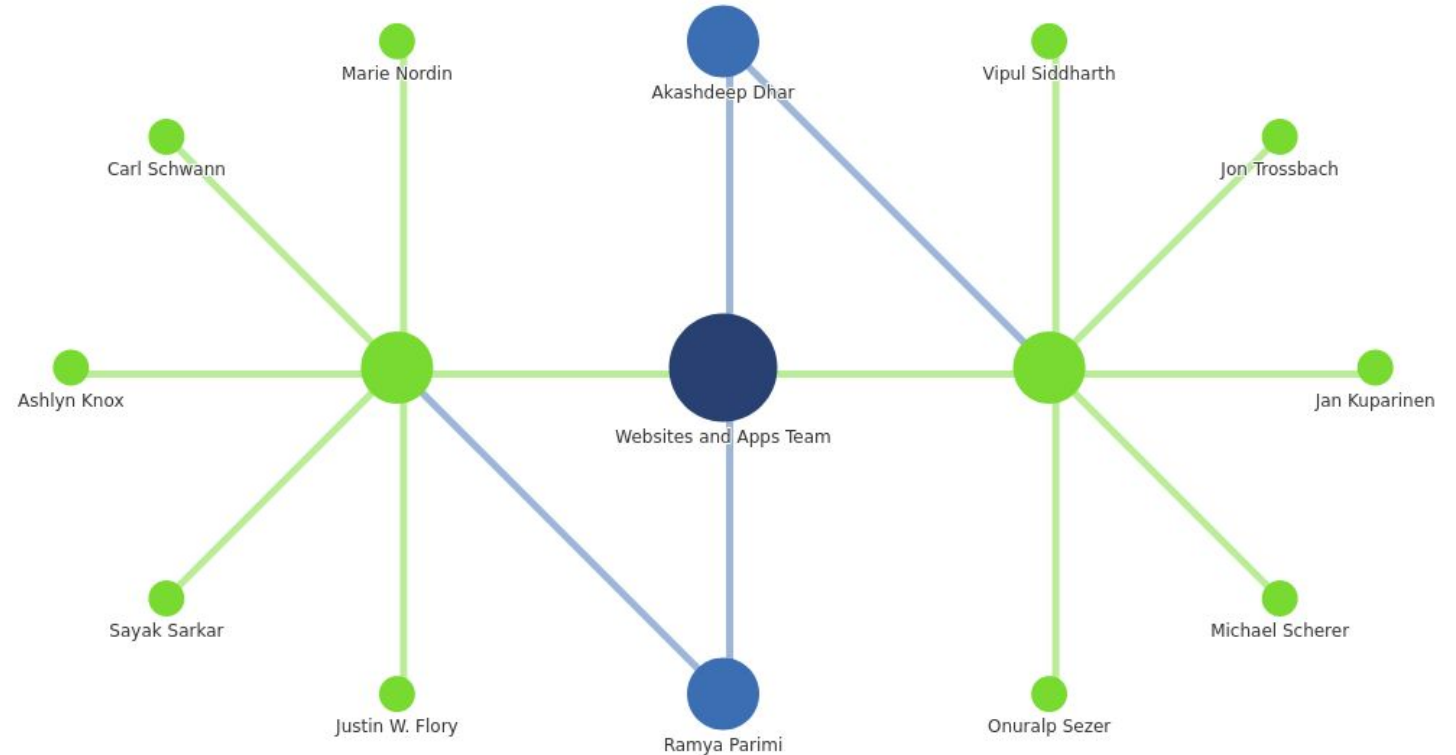

- **Co Leads**
  - Akashdeep Dhar
  - Ramya Parimi
- **Mentorship**
  - Justin W. Flory
  - Marie Nordin
- **Support**
  - Fedora Design
 - Community Platform Engineering
  - Red Hat Open Source Program Office

The work we do
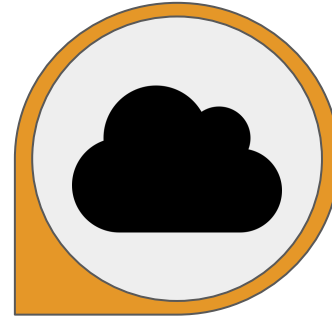

Here's what we help maintain ;)

Progress

Meetbot f.p.o.

Modernize Mote with Python 3 and rework message queues

Survey promo

Promote the first annual contributor survey on multiple sites and apps

First hacksess

Have our first community team hacksess on OpenShift basics

Modernization

Converted Fedora Websites tooling to Python 2 to Python 3

fedora

Websites that we work on

Spins **Labs** **ARM** **Alt** **Com.** **Start** **Flock** **Budget** **Docs**
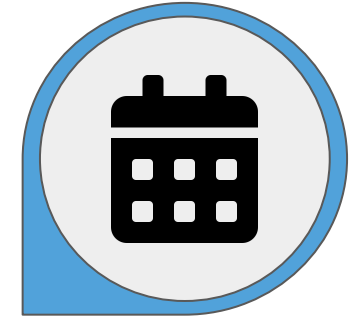

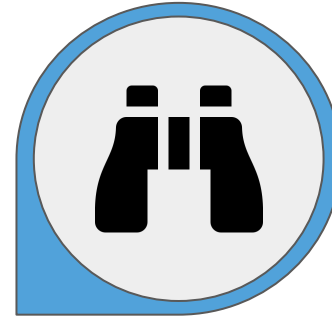

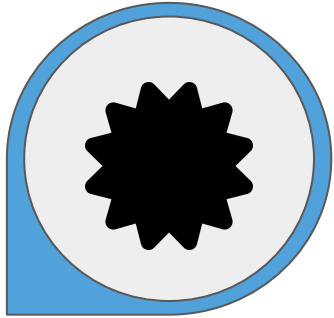

GetFedora

- Genshi
- LXML
- Jinja
- Frozen Flask
- Python RSS
- Flask
- SCSS/CSS

- Python 2 to Python 3 Convert
- Antora and AsciiDoctor
- Make
- Podman/Docker
- Ansible
- HTML
- JavaScript

fedora

A web for everyone

Here's what we help maintain ;)

Application projects that we help with

Badges	AskNot-NG	Elections	Nuancier	Fedocal
Pyramid Tahrir API Requests SQLAlchemy	JavaScript Mako PyYAML	Flask Fedora Messaging Python Fedora FASJSON	Flask Javascript SQLAlchemy Python Fedora	Flask Fedora Messaging SQLAlchemy Python Fedora

fedora

Application projects that we help with
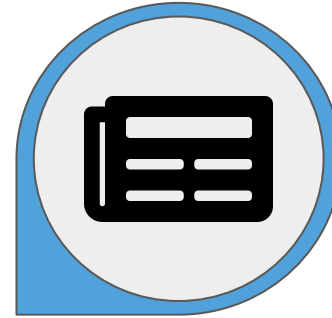

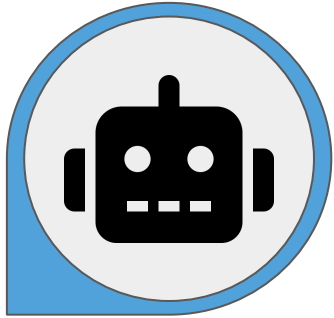

Mote	Commblog	Easyfix	Magazine	Ambassadors
Flask Fedora Messaging Bootstrap 4	Wordpress PHP	Jinja Urllib3 Bugzilla MWClient	Wordpress PHP	Under Revamp (TBD)

Time to rejuvenate!

$ systemctl restart getfedora

Work with **stakeholders** to plan how to best serve the needs of the community.

Collaborate and build on the work of past contributors.

Brainstorm and **problem solve** with other developers.

Adapt and **implement** mockups from the design team.

Test and **explore** responsive design strategies

Modernize and maintain Python servers

Code beautiful websites, write and review with a diverse team.

Learn new things, teach one another, embody **the spirit of Fedora** while growing its web presence.

Get involved

Come join us!

How you can contribute

- Check out our [docs page](#)!

- Introduce yourself on Telegram/IRC, or say Hi at one of our weekly meetings

- Fork the fedora-websites repo to get started

- Make your first issue ticket or pull request

- Join for [weekly website](#) meetings
